

Scrum master: Jason Cao

Scrum Results Sheet:

Team Number: 2

Date: 2021-03-31

Name #1 Steven Huang

Since last scrum: Tried to integrate the people_counter part with the rest of the function

Working on today: Debug the people_counter function so that it will output the correct value

Roadblocks:None

Name #2 Eric Liu

Since last scrum: Change mask analysis and population analysis endpoints to accept and send back the new format (string instead of a tuple of integers).

Working on today: Debug population analysis to handle special cases (no people).

Roadblocks:

Name #3 Winston Wu

Since last scrum: integrated endpoint which receives images, image to video conversion with people counter

Working on today: testing integration by sending images locally

Roadblocks:

Name #4 Jason Cao

Since last scrum: Working on the code for the hardware accelerator and start integrating with code to do bluetooth operations

Working on today: Work with Shuyao on Bluetooth/C code. Work on compression accelerator.

Roadblocks: None

Name #5 Shuyao Wen

Since last scrum: debugging Bluetooth connection

Working on today: debugging Bluetooth connection

Roadblocks: Bluetooth data does not seem to be sent or received
